TAX NOT INCLUDED

TREES

Price	Size	Species (Latin Name)	Common Name	Native Habitat	Soil Moisture	Light Levels	Flower Color	Fall Color	Mature Height	Width	Bloom Time
\$40	5 GAL	Aesculus glabra	Ohio Buckeye	WO, FL	WM, M	FSU, PSU	Greenish/Yellow	Yellow	40-60'	20-30'	Mid/Late-spring
\$30	1.5 GAL	Asimina triloba	Common Pawpaw	WO	WM, M	PSU, PSH	Red/Purple	Yellow	10-25'	10-15'	Spring
\$40	5 GAL	Carpinus caroliniana	Blue Beech	WO, WEF	W, WM, M	FSU, PSH	Greenish/Yellow	Yellow/Orange/Red	15-20'	10-15'	Mid/Late-spring
\$40	5 GAL	Celtis occidentalis	Hackberry	WO, S	WM, M	FSU, PSU	Greenish/Yellow	Yellow	40-80'	40-60'	Mid/Late-spring
\$40	5 GAL	Cercis canadensis	Eastern Redbud	WO	WM, M, DM	PSU, SH	Rosy Pink	Yellow	20-30'	15-35'	Mid-spring
\$40	5 GAL	Cornus alternifolia	Pagoda Dogwood	WO, FL	M	PSU, FSU, SH	Cream/White	Burgundy Red	25'	12-15'	Late-spring
\$25	1.5 GAL	Liriodendron tulipifera	Tulip Tree	WO	M	FSU, PSU	Yellow/Green/Orange	Yellow/Gold	80-100'	40'	Late-spring
\$20	1 GAL	Morus rubra	Red Mulberry	WO, FL	WM, M	FSU, PSU, SH	Light Green	Yellow	30-60'	30-40'	Mid/Late-spring
\$40	5 GAL	Plantanus occidentalis	Sycamore	WO, FL, WEF	WM, M	FSU, PSU	Green	Yellow/Orange/Red	60-140'	65-80'	Spring
\$40	5 GAL	Quercus bicolor	Swamp White Oak	WO, FL	W, WM, M	FSU, PSU	Green/Red/Yellow	Orange/Yellow	50-80'	50-80'	Mid/Late-spring
\$40	5 GAL	Quercus rubra	Red Oak	WO	WM, M, DM	FSU, PSU	Green/Yellow	Red	50-80'	40-80'	Mid/Late-spring
\$40	5 GAL	Quercus velutina	Black Oak	WO, S	M, DM	FSU, PSU	Yellow/Red	Yellow/Red/Purple	60-80'	20-60'	Mid/Late-spring

SHRUBS

Price	Size	Species (Latin Name)	Common Name	Native Habitat	Soil Moisture	Light Levels	Flower Color	Fall Color	Mature Height	Width	Bloom Time
\$20	1 GAL	Amelanchier arborea	Serviceberry	WO	WM, M, DM	FSU, PSU	White	Yellow/Gold	10-30'	10-15'	Mid-spring
\$25	1 GAL	Aronia arbutifolia	Red Chokeberry	WO, FL, WEO	W, WM, M	FSU	White	Orange/Red	6-12'	3-6'	Mid-spring
\$20	1 GAL	Aronia melanocarpa	Black Chokeberry	P, S, WEO	W, WM, M	FSU, PSH	White	Purple/Red	3-8'	3-6'	Late-spring
\$25	1 GAL	Baptisia australis	Blue Wild Indigo	WO	M, DM	FSU, PSU	Blue/Purple	NA	4-5'	4-5'	Mid/Late-spring
\$20	1 GAL	Cephalanthus occidentalis	Button Bush	WEO, WEF, P	W, WM, M	FSU	White	Red/Yellow	3-8'	8-12'	Late-spring/summer
\$20	1 GAL	Hamamelis virginiana	Witch-hazel	WO, S	M	PSU, LSH	Yellow	Red/Yellow/Orange	20'	10-15'	Mid-Late-fall
\$40	5 GAL	Hydrangea quercifolia	Oakleaf Hydrangea	WO	M, DM	PSH, LSH, SH	White	Red/Purple	4-6'	4-6'	Late-spring/Summer
\$20	1 GAL	Ilex decidua	Deciduous Holly	WO, FL	WM, M, DM	FSU, PSU, LSH	White	Brown/Yellow	10-12'	10-12'	Early/Mid-spring
\$20	1 GAL	Ilex verticillata	Winterberry	WO, FL, WEF	WM, M	PSU	White/Green	Yellow	5-20'	5-15'	Late-spring/Summer
\$25	1.5 GAL	Viburnum lentago	Nannyberry Viburnum	WO	WM, M	PSU	White	Orange/Yellow	10-15'	6-12'	Late-spring
\$25	1.5 GAL	Viburnum prunifolium	Blackhaw Viburnum	WO	M, DM, D	PSU, LSH	White	Purple/Red	10-15'	10-15'	Mid/Late-spring

CONTAINER SIZE INFORMATION

*This information is provided only as a general guideline to assist you with your plant selections. There is a great variability with container shapes and sizing.

5 GAL 10 3/4" diameter, 11" high, 3.843 gallons volume with plant height ranging from 18" to 36" and up to 48" or more for trees.

1.5 GAL 8 1/2" diameter, 7 3/4" high, 1.5 gallons volume with plant height ranging from 12" to 28" for shrubs and up to 36" for trees.

1 GAL 6 1/2" diameter, 7" high, .734 gallons volume with plant height ranging from 12" to 24" for shrubs and up to 36" for trees.

Key to Native Habitat and Definitions

Woodland (WO) - Dominated by trees ranging from closed canopy (no or few gaps, low light level) to open canopy (some to frequent gaps, varying light levels).

Floodplain in Woodland (FL) - A subset of woodlands, areas that are permanently or seasonally flooded along rivers, streams and creeks.

Savanna (S) - Moderately to widely spaced trees with moderate to high light levels and a grass/herbaceous plant understory.

Prairie (P) - Dominated by grasses and heraceous flowering plants.

Wetland (WE) - Permanently to seasonally flooded with saturated soils for most or all of the year.

Open Wetland Habitat (WEO) - Open habitat including marsh, fen, sedge meadow and seep.

Forested Wetland Habitat (WEF) - Shrub or tree canopy including flatwoods, swamp, and forested seeps/fens not necessarily associated with floodplain.

Key to Soil Moisture and Definitions: Soil moisture is based on the water table level and the presence of available water for plant growth. Soil moisture is determined by regional climate and affected by soil type (clay slowly drains, loam moderately drains, sand quickly drains).

Dry (D) - Excessively drained, such as sandy soil. Little water retention, moist for only brief period after rain.

Dry Mesic (DM) - Medium dry, well drained. Water available to plants for a short period after rain.

Mesic (M) - Medium moist, comparable to average garden soil. Water available to plants for a moderate period after rain.

Wet Mesic (WM) - Medium moist to soggy most of the year, through significant parts of the growing season. Water drains slowly.

Wet (W) - Soggy or marshy most of the year. Water table is at or above surface all year.

Key to Light Level and Definitions

Full Sun (FSU) - Sun all day but most plants will do well with six hours or more of direct sun

Part Sun (PSU) - Partially shaded, typically along wooded edges and openings between trees

Part Shade (PSH) - Sun for part of the day, shade for the remainder

Light Shade (LSH) - Indirect sun, light or dappled shade all day long

Shade (SH) - Shade all day that is heavier than light shade

Woodland Shade (WSH) - Heavily shaded by closed canopy of trees with filtered sunlight
