Plant Availability: 3/28/2024 Update. Several species are slow to germinate and may not be ready in time. Those species are crossed out and will not be available for sale online. However, if they are ready by mid-May, we will add them to the pop-up sale. We have also added 8 new native plant species to the online sale. Please note that our growers work hard to ensure that everything we've ordered is grown successfully, but nature is unpredictable. This list is subject to change due to potential germination issues and variable spring growing conditions.

Plug Packs and Pricing: For online ordering, plugs are available in 3-packs only. Individual plugs are not available in the online store but will be available at the pop-up sale on May 18 and 19 along with an expanded selection of native plants. Plug packs are \$9 each, plus tax. This breaks down to \$3/plug.
